All Under One Roof

Our specialised mobility shop is designed so you can discover a wide range of mobility, accessibility and daily living aids, all under one roof. Whether you're looking for something to make day-to-day tasks easier, improvements to your home comfort or a better way to get out and about, there's a host of great products on offer at Mobility Solutions.

Mobility Solutions Superstore

Our Mobility Solutions Glasgow superstore is the largest of its kind in Scotland, comprising of 7,500 square feet of retail space.

Our facilities are fully accessible for wheelchair and scooter users and those with limited mobility. Situated just 10 minutes from the M8, we have ample off street parking so your visit is completely stress-free.

Help is at hand

Our friendly mobility advisors are on hand seven days a week to talk you through your options and explain exactly how each product can help.

See and try

We know that seeing products first hand is important before you buy, especially when you rely on mobility aids to help with everyday living. Browse through our displays and try our specialist products for yourself.

Life made easier

The Motability Scheme

Mobility Solutions is an approved supplier for the Motability Powered Wheelchair and Scooter Scheme. We also offer a range of wheelchair accessible vehicles which are available through the Motability Scheme.

Powered wheelchairs and scooters are offered on a three-year lease term.

Our friendly staff can guide you through the process and answer any questions you may have, making things as simple and as easy as it should be.

To be eligible for the Motability Scheme, you must be in receipt of one of the following allowances and have at least 12 months' award remaining:

- Higher Rate Mobility Component of the Disability Living Allowance (DLA)
- Enhanced Rate of Mobility Component of Personal Independence Payment (PIP)
- War Pensioners' Mobility Supplement (WPMS)
- Higher Rate Mobility Component of Child Disability Payment (Scotland)
- Armed Forces Independence Payment (AFIP)
- Enhanced Rate Mobility Component Adult Disability Payment (Scotland)

At the end of the term there's the option to lease a brand new product.

The Motability Scheme

Life made easier

Our made to measure range of rise recliner and porter chairs from Recliners Ltd are the ideal way to purchase a chair that fits. All have a mechanism to assist into a standing position. Recline only versions are also available.

The single motor Tilt-in-Space mechanism is available across the rise recliner range. A two-button handset allows the user to transfer between reclining and sitting positions. As the leg rest is elevated the chair tilts backwards, remaining in a 90-degree seating angle to ensure the back is well supported.

We offer the full range of mechanisms including a dual motor version of the Tilt-in-Space which would allow for further backrest recline. The Dual Motor Static Seat mechanism allows separate operation of the leg and backrest. Wallhugger, variable angle lift and bariatric mechanisms are also available to accommodate up to 70 stone in user weight.

Choose from five different backrest styles, seat cushions and a large selection of fabrics. Complete the look with a complimentary armchair or sofa.

Life made easier

**“Mobility Solutions
have been amazing
the whole way
through”**

Douglas

“The difference to my life after qualifying for the Motability Scheme, was night and day. I couldn’t believe how easy it was. Sarah really listened to me and my needs and took care of everything for me. When my scooter arrived, it was such a relief to get out of the house and

enjoy my independence again. As soon as I sat on the scooter, I loved it straight away. I liked the fact it was big, sturdy and I felt safe. The suspension in the scooter made it much more comfortable for my back and Mobility Solutions even arranged for solid tyres to be fitted

so I don’t have to worry about getting punctures. Mobility Solutions have been amazing the whole way through with the products and services. I recommend the store to all my neighbours and even at 90 I’ll still be coming in to see you!”

Customer testimonials

"Our advisor was knowledgeable, approachable but never pressured us"

"We were looking for something that would mean we could all get out as a family but we wouldn't have to always push Roland in his wheelchair. Initially, we thought that Roland wouldn't be able to use a mobility scooter with the use of only one hand. But we were soon proved wrong. We can't thank Mobility Solutions enough. Our advisor was knowledgeable, approachable but never pressured us. It was a surprise to us that we ended up buying in the day but we had such a great experience and loved it!"

Roland

"I was really pleased with Mobility Solutions' range of scooters"

Ivy

"My husband and I have always enjoyed country walks and visiting the local RSPB and other nature reserves. I could no longer enjoy the outdoors as I had to stop and rest and instead of feeling refreshed after being outdoors, I was exhausted. The staff were all friendly and knowledgeable about the different types of scooters and Callum answered all my questions. He gave me good advice on the best type of scooter for my needs. It was great being able to test drive it to be sure that it was right for me. I was really pleased with Mobility Solutions' range of scooters and the quality and price of them were reasonable. I knew that if there were any issues, I could contact Mobility Solutions for help."
